

Notification template for Article 131 CRD – Other Systemically Important Institutions (O-SII)

Please send this template to

- notifications@esrb.europa.eu when notifying the ESRB;
- macropru.notifications@ecb.europa.eu when notifying the ECB;
- notifications@eba.europa.eu when notifying the EBA.

Emailing this template to the above-mentioned addresses constitutes an official notification, no further official letter is required. In order to facilitate the work of the notified authorities, please send the notification template in a format that allows electronically copying the information.

1. Notifying national authority										
1.1 Name of the notifying authority	Eesti Pank									
2. Description of the measure										
2.1 Concerned institution or group of institutions	<p>The O-SII buffer will apply to Swedbank AS and AS SEB Pank on an individual and subconsolidated basis.</p> <table border="1"> <thead> <tr> <th>Institution</th> <th>LEI code</th> </tr> </thead> <tbody> <tr> <td>Swedbank AS</td> <td>549300PHQZ4HL15HH975</td> </tr> <tr> <td>AS SEB Pank</td> <td>549300ND1MQ8SNNYMJ22</td> </tr> </tbody> </table>	Institution	LEI code	Swedbank AS	549300PHQZ4HL15HH975	AS SEB Pank	549300ND1MQ8SNNYMJ22			
Institution	LEI code									
Swedbank AS	549300PHQZ4HL15HH975									
AS SEB Pank	549300ND1MQ8SNNYMJ22									
2.2 Level of the buffer applied	The O-SII buffer rate will be set at 2% for both of the institutions.									
2.3 Name of the EU ultimate parent institution	<table border="1"> <thead> <tr> <th></th> <th>Parent institution</th> <th>LEI code of parent institution</th> </tr> </thead> <tbody> <tr> <td>Swedbank AS</td> <td>Swedbank AB</td> <td>M312WZV08Y7LYUC71685</td> </tr> <tr> <td>AS SEB Pank</td> <td>Skandinaviska Enskilda Banken AB</td> <td>F3JS33DEI6XQ4ZBPTN86</td> </tr> </tbody> </table>		Parent institution	LEI code of parent institution	Swedbank AS	Swedbank AB	M312WZV08Y7LYUC71685	AS SEB Pank	Skandinaviska Enskilda Banken AB	F3JS33DEI6XQ4ZBPTN86
	Parent institution	LEI code of parent institution								
Swedbank AS	Swedbank AB	M312WZV08Y7LYUC71685								
AS SEB Pank	Skandinaviska Enskilda Banken AB	F3JS33DEI6XQ4ZBPTN86								
2.4 Names of subsidiaries	N/A									
3. Timing of the measure										
3.1 Timing of the Decision	The decision was taken on 25 April 2016									
3.2 Timing of the Publication	The expected date of the publication of the decree of the Governor of Eesti Pank is by the end of May 2016.									

3.3 Disclosure	<p>Eesti Pank designated Swedbank AS and AS SEB Pank as credit institutions that are important for the Estonian financial system in December 2015. At the same time Eesti Pank informed the public that the decision on the buffer rates for those institutions will be taken together with the reassessment of the systemic risk buffer in the first half of 2016.</p> <p>The analysis of the setting of the SRB and the O-SII buffer will be published on the Eesti Pank website on 27 April 2016.</p>																						
3.4 Timing of Application	Third quarter 2016.																						
3.5 Phasing in	Fully-loaded implementation.																						
3.6 Review of the measure	The list of the identified O-SIIs and the O-SII buffer rates will generally be reviewed on an annual basis.																						
4. Reason for O-SII identification and activation of the O-SII buffer																							
4.1 Scores of concerned institution or group of institutions, as per EBA guidelines on the assessment of O-SIIs (Article 131.3)	<table border="1" data-bbox="448 797 1331 1169"> <thead> <tr> <th rowspan="2">Institution</th> <th rowspan="2">Overall score</th> <th colspan="4">Criterion</th> </tr> <tr> <th>Size</th> <th>Importance (including substitutability/ financial system infrastructure)</th> <th>Complexity/ cross-border activity</th> <th>Inter-connectedness</th> </tr> </thead> <tbody> <tr> <td>Swedbank AS</td> <td>3 194</td> <td>4 049</td> <td>4 072</td> <td>2 806</td> <td>1 850</td> </tr> <tr> <td>AS SEB Pank</td> <td>1 930</td> <td>2 346</td> <td>2 274</td> <td>2 091</td> <td>1 011</td> </tr> </tbody> </table> <p>For additional information, please see 'Identifying the systemically important credit institutions in Estonia (December 2015)' published on Eesti Pank's website: http://www.eestipank.ee/sites/eestipank.ee/files/files/Finantsstabiilsus/esokm_2015_eng.pdf</p>	Institution	Overall score	Criterion				Size	Importance (including substitutability/ financial system infrastructure)	Complexity/ cross-border activity	Inter-connectedness	Swedbank AS	3 194	4 049	4 072	2 806	1 850	AS SEB Pank	1 930	2 346	2 274	2 091	1 011
Institution	Overall score			Criterion																			
		Size	Importance (including substitutability/ financial system infrastructure)	Complexity/ cross-border activity	Inter-connectedness																		
Swedbank AS	3 194	4 049	4 072	2 806	1 850																		
AS SEB Pank	1 930	2 346	2 274	2 091	1 011																		
4.2 Methodology and indicators used for designation of the O-SII (Article 131.3)	In defining institutions as O-SIIs, Eesti Pank used only the indicators listed as mandatory in the EBA guidelines and did not consider it necessary to use any additional indicators to add to the list. Eesti Pank decided to maintain 350 basis points as the threshold of systemic importance. Only banks were included in the calculations.																						
4.3 Supervisory judgement	<p>When the criteria and the mandatory indicators given in the EBA guidelines were applied to the banks operating Estonia, Swedbank AS, AS SEB Pank and AS LHV Pank had a score above the threshold suggested by the EBA Guidelines. However, Eesti Pank decided not to designate AS LHV Pank as an O-SII in Estonia. This is because of a specific feature of the Estonian banking sector that the EBA methodology does not fully take into account.</p> <p>For additional information, please see the assessment 'Identifying the systemically important credit institutions in Estonia (December 2015)' published on Eesti Pank's website: http://www.eestipank.ee/sites/eestipank.ee/files/files/Finantsstabiilsus/esokm_2015_eng.pdf</p>																						
4.4 Calibrating the O-SII buffer	Eesti Pank applies the maximum rate of 2% to those credit institutions that get an overall score of at least 1200 basis points in the assessment of systemic importance. A buffer rate of at least 0.5% is applied to credit institutions that pass the minimum threshold of 350 basis points. If the overall score for systemic importance is between 350 and 1200 basis points, the benchmark rate is found linearly, and the result rounded to the nearest 0.5																						

	<p>percentage point.</p> <p>The threshold of 1200 basis points results from peer review and an analysis of the systemic importance of the banks operating in Estonia.</p> <p>As some 90% of the assets of the Estonian banking sector are held by large banking groups from the Nordic countries that mainly operate in the same Nordic and Baltic area, Eesti Pank considered the equivalent buffer rates of the other countries in the Nordic and Baltic region when calibrating its O-SII buffer rates.</p> <p>In addition, the distribution of the return on risk-weighted assets of individual banks operating in Estonia meant the 'expected impact' approach was used to assess the appropriateness of the score of 1200 basis points as the threshold for the maximum buffer rate of 2% for O-SIIs.</p>
4.5 Effectiveness and proportionality of measure	<p>The higher capital requirements help to increase the resilience of the systemically important banks in Estonia. The total assets of the banks identified as systemically important – Swedbank AS and AS SEB Pank – were worth around 70% of Estonian GDP at the end of 2015, they had issued some 65% of the loans to the real sector and they held 75% of the total deposits of Estonian companies and households. If either of the two largest banks were to cease functioning it would be very difficult to replace its services quickly. The non-functioning of these banks would endanger the stability of the Estonian financial system, incur major costs for the state and have a negative effect on the real economy.</p> <p>In 2015 the two banks fulfilled the total capital and buffer requirements of 12.5% with voluntary excess using CET1 capital. The total capital ratios of these banks were close to 39% of risk-weighted assets at the end of 2015. Thus the impact of the application of this measure is expected to be neutral.</p>
5. Cross-border and cross-sector impact of the measure	
5.1 Assessment of cross-border effects and the likely impact on the internal market (Recommendation ESRB/2015/2)	<p>There is little cross-border activity by the banks, and their foreign exposures are small. Thus the potential impact of the O-SII buffers being applied to the two largest banks in Estonia will be very small on the financial system of the European Union as a whole and on individual member states.</p>
5.2 Assessment of leakages and regulatory arbitrage within the notifying Member State	<p>Swedish authorities have set higher capital buffer requirements for systemically important institutions at the consolidated level.</p>
6. Combinations and interactions with other measures	
6.1 Combinations between G-SII and O-SII buffers (Article 131.14)	N/A
6.2 Combinations with SRB buffers (Article 131.14 + Article 133.5)	<p>Eesti Pank will apply a systemic risk buffer for all credit institutions authorised in Estonia. The systemic risk buffer amounts to 1% and is applied to domestic exposures. Thus the systemic risk buffer and O-SII buffer are cumulative.</p>

6.3 O-SII requirement for a subsidiary (Article 131.8)		Parent institution	O-SII buffer rate of the parent institution
	Swedbank AS	Swedbank AB	2%
	AS SEB Pank	Skandinaviska Enskilda Banken AB	2%
6.4 Interaction with other measures	N/A		

7. Miscellaneous	
7.1 Contact person(s) at notifying authority	Jaak Tõrs, Head of Financial Stability Department +372 668 0905; jaak.tors@eestipank.ee
7.2 Any other relevant information	N/A
