

**Call for Proposals**  
**Alberto Giovannini Programme for Data Science**  
**2022-2023**

**Clarification No. 1**

Article 2.3 Technical Aspects has been updated to read:

Whilst on-site, successful candidates will be provided with an ECB computer with the following data access as well as statistical, data processing and text editing software, as required:

- EMIR TR data and the ECB statistical warehouse. Data is processed and stored in Hadoop;
- Statistical and data-processing software: Apache Impala/Hive, R, Python, MATLAB, Stata, Git.
