Notification regarding the identification of Deutsche Bank AG as global systemically important institution (G-SII)

Dear Sir or Madam,

According to the COMMISSION DELEGATED REGULATION (EU) No 1222/2014 (supplementing Directive 2013/36/EU) and Article 10f of the German banking act ("KWG") BaFin designated Deutsche Bank Aktiengesellschaft as global systemically important institution (G-SII).

As a result of the current validation of the G-SII assessment Deutsche Bank Aktiengesellschaft continues to be the only G-SII in Germany with a total score of 360 basis points and is still allocated to subcategory 3, which corresponds with an additional own funds requirement of 2,0%.

This capital requirement will be phased-in from 2016 onwards according to Article 10f, 64r (7) KWG and Article 162 (5) DIRECTIVE 2013/36/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directives 2006/48/EC and 2006/49/EC.

Kind regards

Ben Fischer, Head of Section R 2
