

Notification template for Article 131 of the Capital Requirements Directive (CRD) – Other Systemically Important Institutions (O-SIIs)

Template for notifying the European Central Bank (ECB) and the European Systemic Risk Board (ESRB) of the setting or resetting of an O-SII buffer under Article 131(7) CRD and of the identity of O-SIIs under Article 131(12) CRD

Please send/upload this template to:

- macropru.notifications@ecb.europa.eu when notifying the ECB (under Article 5 of the Single Supervisory Mechanism (SSM) Regulation¹);
- notifications@esrb.europa.eu when notifying the ESRB.

The ESRB will forward this notification to the European Commission, to the European Banking Authority (EBA) and to the competent and designated authorities of the Member States concerned without delay and will publicly disclose the names of the O-SIIs on its website. This notification will be made public by the ESRB once the relevant authorities have adopted and published the notified macroprudential measure².

E-mailing/uploading this template to the above addresses constitutes official notification; no further official letter is required. To facilitate the work of the notified authorities, please send the notification template in a format that allows the information to be read electronically.

1. Notifying national authority							
1.1 Name of the notifying authority	Banca d'Italia						
1.2 Country of the notifying authority	Italy						
2. Description of the measure							
2.1a Institution or group of institutions concerned	<p>The EBA methodology has been applied to compute the scores for all the institutions operating in Italy as of 31 December 2020. Banca d'Italia has decided to maintain the 350 basis point threshold defined by EBA Guidelines. The identification took place at the highest level of consolidation in Italy.</p> <p>The following institutions (with scores above 350 basis points) have been identified as O-SIIs.</p> <table border="1"> <thead> <tr> <th>Name of institution</th> <th>LEI</th> <th>Consolidation level</th> </tr> </thead> <tbody> <tr> <td>UniCredit Group (UCG)</td> <td>549300TRUWO2CD2 G5692</td> <td>Highest level of consolidation</td> </tr> </tbody> </table>	Name of institution	LEI	Consolidation level	UniCredit Group (UCG)	549300TRUWO2CD2 G5692	Highest level of consolidation

3. Timing for the measure																						

3.1 Timing for the decision	12/10/2021					
3.2 Timing for publication	19/11/2021					
3.3 Disclosure	Banca d'Italia has already notified the ECB and is now notifying the ESRB one month before the publication of the decision. The designated institutions will be notified. The O-SII capital buffer requirements will be published on the Banca d'Italia website once all the administrative procedures have been completed.					
3.4 Timing for application	01/01/2022					
3.5 Phasing in	The buffers will be fully implemented as of the 1st of January 2022.					
	Name of institution	Date1	Date2	Date3	Date4	Date5
		%	%	%	%	%
		%	%	%	%	%
3.6 Review of the measure	The measure will be reviewed at least annually.					
4. Reason for O-SII identification and activation of the O-SII buffer						
4.1 Scores of institutions or group of institutions concerned, as per EBA guidelines on the assessment of O-SIIs (Article 131.3 CRD)	Name of institution	Size	Substitutability	Complexity	Interconnectedness	Overall Score
	UniCredit Group	2.796	2.195	4.307	3.496	3.199
	Gruppo Intesa Sanpaolo	2.479	2.774	3.243	2.608	2.776
	Gruppo Banco BPM	551	490	306	487	458
	Gruppo Monte dei Paschi di Siena	451	359	298	405	378
	Please refer to the attached file for a full description of the methodology used.					
4.2 Methodology and indicators used for designation of the O-SII (Article 131.3)	<p>The identification process followed the methodology set out in the EBA's Guidelines (EBA/GL/2014/10). Accordingly, the systemic importance of institutions was assessed using ten mandatory indicators referring to the four following criteria: size, importance (including substitutability/financial system infrastructure), complexity/cross-border activity, interconnectedness.</p> <p>The exercise was conducted using data as of 31 December 2020 from the FINREP templates prescribed by the EBA Guidelines. Whenever the requirements for reporting those templates do not apply to relevant institutions, Banca d'Italia relied on the closest available variables from other FINREP templates.</p>					

	<p>Banca d'Italia did not use any optional indicators among those listed by the EBA and opted to maintain the 350 basis points threshold defined by the Guidelines as a limit for systemic importance. Hence, all institutions with a score above 350 basis point were automatically identified as O-SIIs.</p> <p>A more detailed illustration of the score attributed to each institution is provided in the attached file.</p>
4.3 Supervisory judgement	Not applicable.
4.4 Calibrating the O-SII buffer	The identified institutions are associated to buckets of the capital buffers (0.25%, 0.75% and 1.00%) according to the classification resulting from a cluster analysis.
4.5 Effectiveness and proportionality of measure	<p>The scope for negative spillovers from failing systemically important financial institutions has been widely acknowledged. The O-SII buffer improves the total loss-absorbing capacity of such institutions, thus minimizing the risk of contagion and strengthening the resilience of the financial sector as a whole. At the same time, it corrects the distortions in risk-taking incentives caused by implicit public guarantee (moral hazard).</p> <p>The proposed calibrations of the O-SII buffers are proportionate to the systemic importance of the banks involved, as summarised by their overall scores.</p>
5. Sufficiency, consistency and non-overlap of the policy response	
5.1 Sufficiency of the policy response	The identification process applied by the Bank of Italy follows the methodology set out in the EBA's Guidelines (EBA/GL/2014/10), which allows a proper representation of structural risks in the Italian banking system. No supervisory judgement has been exercised. The mapping from institution-specific score to O-SII buffer requirement was designed to reflect differences in the degree of systemic importance identified through a cluster analysis. The O-SII buffers applied by the Bank of Italy are consistent with the ECB floors.
5.2 Consistency of application of the policy response	The measure is aimed at addressing the risks arising from systemic relevance of domestic institutions. It is reviewed and applied regularly on an annual basis. There are no interactions with other measures potentially having the same goal. Regarding the methodology applied by the Bank of Italy, see the answer to 5.1.

5.3 Non-overlap of the policy response	There are no other policy instruments used to address the same systemic risk. As illustrated in par.7.1, only one banking group identified as O-SII (UCG) also has G-SII status and is subject to a G-SII capital buffer (1.00%).																																						
6. Cross-border and cross-sector impact of the measure																																							
6.1 Assessment of cross-border effects and the likely impact on the Internal Market (Recommendation ESRB/2015/2³)	Not applicable.																																						
6.2 Assessment of leakages and regulatory arbitrage within the notifying Member State	Leakages or regulatory arbitrage are not expected.																																						
7. Combinations and interactions with other measures																																							
7.1 Combinations between G-SII and O-SII buffers (Article 131.14)	One banking group identified as O-SII (UCG) also has G-SII status and is subject to a G-SII capital buffer (1.00%). <table border="1" data-bbox="571 1191 1439 1348" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 50%;">Name of institution</th> <th style="width: 25%;">O-SII buffer</th> <th style="width: 25%;">G-SII buffer</th> </tr> </thead> <tbody> <tr> <td>UniCredit Group</td> <td style="text-align: center;">1.00%</td> <td style="text-align: center;">1.00%</td> </tr> <tr> <td></td> <td style="text-align: center;">%</td> <td style="text-align: center;">%</td> </tr> <tr> <td></td> <td style="text-align: center;">%</td> <td style="text-align: center;">%</td> </tr> </tbody> </table>			Name of institution	O-SII buffer	G-SII buffer	UniCredit Group	1.00%	1.00%		%	%		%	%
